

# CAIRANNE

## "LA PLUME"

### SOIL

Clay-limestone soil with many rolled pebbles.

### GRAPES VARIETIES

Grenache et Syrah.

### VINIFICATION

Traditional, in raw cement vats.

### TASTING

The nose opens on blackberry, licorice, sweet spices (clove, light nutmeg). The palate is very beautiful, with an incredible balance between a glycerin, an enveloping and persistent matter, and a great impression of lightness coming from both a beautiful acidity, but especially from a mineral structure in place from the middle of the mouth.

### FOOD AND WINE PAIRING

This wine will go perfectly with a dish in sauce or a spicy southern dish or a rack of lamb. Serve between 16° and 18°C.
